

Anleitung für den Trainer/die Trainerin:

1. Die Arbeitsblätter ausdrucken.
2. Die Dominosteine ausschneiden.
3. Ideal wäre, wenn sie auch laminiert werden. Somit können die Dominosteine länger in ihrer Form bleiben.
4. **Anwendung:** Der Schüler/ die Schülerin beginnt mit dem Start und muss die jeweiligen Dominosteine voneinander differenzieren. Die Übung ist beendet, wenn das Kind zum Ziel kommt.
5. Diese Dominosteine können auch mit nach Hause geschickt werden, damit das Kind auch mit den Eltern üben kann.
